

Automated Clearing House (ACH) Rules for ACH Originators

To ensure compliance with current regulations, all ACH Originators have access to a free online version of the National Automated Clearing House Association (Nacha) Operating Rules. The Rules are published annually and are subject to change. The ACH Rules can be accessed at

<https://www.nachaoperatingrulesonline.org>

This Quick Guide provides a brief summary of ACH facts and ACH Originator Responsibilities. It is not intended to be a replacement or substitution for the Nacha Rules and Guidelines. Nacha Rules are subject to change.

ACH Facts

- An ACH Originator is any entity that creates an ACH transaction.
- ACH entries are categorized as “consumer” or “corporate”.
- ACH is capable of crediting or debiting checking or savings accounts.

Your Responsibilities as an Originator

- Obtain proper authorizations, dependent upon the transaction type, and retain authorizations for two years past revocation (See “Consumer Debit Authorizations”).
- If requested by the Bank, provide a copy of the authorization, Provident Bank may request to see your authorizations from time to time as part of an annual audit.
- Send entries on the proper date.
- Give appropriate notice to debtor if changing amount or date.
- Cease subsequent entries when notified.
- Make necessary changes to payee account information within six (6) banking days upon receipt of a Notification of Change or before another entry is sent.
- When creating an ACH file, the Originator must populate the Company Name Field with the name by which it is known to and readily recognized by the Receiver of the entry.
- Check payees against OFAC compliance checklists.
- Protect the banking information received to originate transactions.
- Ensure your computer and you are protected as outlined in your Provident Bank Agreement.

Direct Deposit Payroll Authorization (Consumers)

- Use a direct deposit authorization form that collects employee account information. This form should allow the company to make credit and debit entries in the event a payroll adjustment is necessary.
- Obtain a voided check from the employee (if possible).
- The most common SEC code for direct deposit is PPD.

Consumer Debit Authorizations

- For consumers, an authorization to debit an account must be in writing or “similarly authenticated”.
- The most common SEC code for consumer debits is PPD.

Corporate Authorizations

- For Companies, there must be an agreement between the two parties. While the Nacha Rules do not define an “agreement,” Provident Bank requires that you have the company complete an authorization form.
- Originator must be able to provide proof of authorization or originator contact information for entries to non-consumer accounts (commercial) if requested.
- The most common SEC code for corporate transactions is CCD. It is used for debits or credits.

Changing Date or Amounts of Debits

- ACH Rules require you to notify your debtors of any changes in date or amount debited under the following circumstances:
 1. Seven (7) calendar days notice for a change of date (consumer or corporate).
 2. Ten (10) calendar days notice for a change in amount (consumer only).

**Sending the notice via U.S. Mail is acceptable.

Pre-Notifications (PRENOTES)

- Prenotes are zero-dollar entries that precede the first live entry. The purpose of a prenote is to verify account information.
- Prenotes are optional for you to send. However, if sent, prenote rules must be followed and a prenote must precede the first live entry by at least three (3) banking days.
- The Receiving Bank is not required to validate the name of the payee on the prenote, although some do; they are only required to verify the account number.

Notice of Change

- When ACH information is incorrect, a Notification of Change (NOC) is sent by the Receiving Bank requesting that future entries contain correct information. The ACH Rules require you to make the change within six (6) banking days of receiving the information from Provident Bank or before another entry is sent.
- The Receiving Bank warrants that the information they provide to you is correct.
- Provident Bank will notify you of any NOCs received on your behalf.
- Provident Bank may pass along any fines received based upon your non-compliance.

Returns

- Returns must be processed by the Receiving Bank within 24 hours of settlement. As an originator, Provident Bank recommends that you view your account activity daily.
- An exception to the 24-hour rule is consumer unauthorized returns, which may be returned within 60 days of date of statement.
- The use of consumer (PPD 60 days) or corporate (CCD 24-hour) entry codes determines the applicable ACH return rules.
- If the Receiving Bank receives a dispute claiming a debit was unauthorized, the Receiving Bank must obtain a signed Written Statement of Unauthorized Debit from the account holder. You may obtain a copy of that statement by requesting a copy through Provident Bank.
- The ACH Rules require that Originators must cease the origination of any ACH debit transactions when a previous ACH debit is returned as unauthorized, or authorization revoked by the Receiver. The Originator must obtain a new Authorization prior to re-originating any future transaction.
- A “Stop Payment” return may be re-initiated only if you receive approval from the payee to re-send the item.

OFAC (Office of Foreign Asset Control)

- You are required to check payees against OFAC compliance checklists.
- OFAC lists countries, groups and individuals with which U.S. Companies are not permitted to send or receive funds.
- The Bank must protect itself by informing every customer that it is against the law to send debit or credit entries to OFAC-blocked entities. This is also noted in your agreement with Provident Bank.
- You may check the OFAC SDN list at: <http://sdnsearch.ofac.treas.gov>

Reversals

- A **Reversal** must be originated within five banking days of the effective date of the original entry to correct a duplicate or erroneous debit or credit transaction sent out in error.
- You are required to reach out to the payment recipient to inform them the reversal is in progress.

“Can Provident Bank guarantee that a Reversal will be successful?”

No! The Operating Rules of the National Automated Clearing House Association (Nacha) provide that the Receiving Depository Financial Institution (RDFI) may accept Reversals without a prenotification. However, the RDFI may return them for any valid reason. As a matter of practice, many RDFI's do accept Reversals if there are sufficient funds in the Receiver's account and the account is not blocked, frozen or otherwise inaccessible.

Fraud Monitoring

Provident Bank currently uses Actimize as an added layer of protection for our Originating Customers. You will receive notification via email or phone call if the system alerts us. Actimize monitors credits files and will alert if there are new payees, new account numbers or a variance in dollar amounts. You are responsible for responding to these alerts and validating the transactions with the ACH Operations Group.
